## Student Government Association Leads: The Plan for 2023-2024

Introducing the strategic goals and vision for the Student Government Association, affirmed by Senate on October 5<sup>th</sup>, 2023

### 1.0 Presented by Jesus Gonzalez

### 2.0 Motion to adopt strategic goals

Jayden Olmstead moved to vote on an amended version of the strategic goals by Fanan Nizam, Fanan Nizam seconded the motion. The amended strategic goals included the words “uplift minority students” under the cultivating a united community strategic goal. The motion was approved by the Senate.

The vision statement for the 2023-'24 academic year was introduced to the Student Government Association by President Jesus Gonzalez on September 6<sup>th</sup>, 2023. The vision statement reads “By the end of the year, we aspire for members of our community to confidently name a tangible, positive impact created by the Student Government Association, showcasing our commitment to meaningful service and accountability.” For the Student Government Association to leave an impact and fulfill its mission statement, as written in its constitution, it must focus on the following.

### 1. Cultivating a United Community

The Student Government Association will foster a community where students, faculty, and staff come together to uplift minority students, celebrate unity, promote inclusivity, embrace diversity, and engage in respectful dialogue. This unity will empower us to collectively address challenges, embrace differences with understanding, and demonstrate courageous citizenship for the good of Concordia College.

### 2. Enhancing Accessibility and Access for All Campus Members

The Student Government Association will prioritize enhancing accessibility for every member of our campus community. Through targeted initiatives and projects, we will ensure that all

students, faculty, and staff can navigate our campus with ease, promoting an environment where everyone can fully participate and thrive.

### **3. Building A Healthy Campus Community**

The Student Government Association will focus on cultivating the physical and mental well-being of our students, faculty, and staff. We will promote resilience in the face of change and practice transformational leadership, working collaboratively to create a healthy community that prioritizes the health and needs of both our students and local neighbors.

### **4. Developing a Safe Campus Environment**

The Student Government Association will commit to developing and maintaining a safe campus environment where every member feels secure and protected. We will implement measures to ensure the safety of our students, faculty, and staff, fostering an atmosphere conducive to learning and personal growth.

Having completed these four goals for the year, the Student Government Association would have lived up to its commitment to cultivating a strong sense of community between the faculty, the administration, and the students at the college community, and also further enhancing the quality of life and education at Concordia College.
